SUMMARY

UX/UI Designer with a 2 year track record of designing interfaces and product designs across intensive, fast-paced internships. AI Leverages rapid Researching and Prototyping design systems to maximize refinement cycles and ensure seamless engineering handoffs. Experienced in shipping user-centered solutions for SaaS and PaaS platforms by bridging the gap between user data and strategic product goals.

WORK EXPERIENCE

VCBay Solutions - (Zefyron - EU)
Product UX Designer Intern (Full-time)

Feb 2026 - July 2026
Delhi / Remote

Zefyron is a European-based venture investment and startup networking platform.

- Spearheaded the comprehensive revamp of 5 core web pages, including the landing, product, demo, and login/signup flows, collaborating directly with developers to execute optimized asset handoffs and visual quality assurance for a seamless user experience.
- Redesigned product workflows for web and mobile views to eliminate drop-off points, streamline the onboarding journey, and simplify daily navigation pathing.
- Integrated AI-driven features into the platform interface, simplifying complex workflows and enhancing how startups and venture capital investors interact and control the system.

Frover Labs Pvt
UX Designer Intern (Part-time)

Nov 2024 - Feb 2025
Goa / Remote

Frover Agency is a digital product studio specializing in growth-driven website design.

- Designed the layout sequences and information architecture for client websites, strategically positioning key sections and high-priority visual elements to establish a clear hierarchy aligned with each client's brand identity.
- Redesigned landing pages and core website structures to guide user attention toward primary call-to-actions, significantly accelerating user conversion rates and reducing drop-offs across client platforms.

National Institute of Technology Goa
Lead UI Designer (Student Intern Project)

June 2023 - Feb 2024
Goa / Onsite

NIT Goa is a premier national institute in India; this project was commissioned by the campus control cell (CCC).

- Co-led a batchmates & juniors design and development team to create 2nd Version of the official institutional website, acting as a senior design lead alongside a peer.
- Redesigned the entire user interface and visual system of the platform, preserving the core content architecture while updating the visual aesthetics for a modern look.
- Collaborated directly with the engineering team to track development progress, review code implementations, and conduct quality assurance testing to ensure exact design fidelity.

EDUCATION

NIT(National Institute of Technology, Goa)

B.Tech - Graduated (2025)

SELECTED DESIGN PROJECTS

UXHack Design Challenge Submissions

[View](#)

- **Ranked 3rd India 2025** Leaderboard by delivering high-fidelity UI/UX designs for Fintech, SaaS dashboards, and E-commerce checkouts **during intense 36-hour design sprints.**

B2B Fleet Management Dashboard

[View](#)

- Designed a unified three-section dashboard interface that integrates high-level transit overviews, a live tracking map with vehicle timelines, and a dedicated fleet management panel displaying real-time vehicle condition and availability.

- Developed an intuitive workflow that surfaces nearby available vehicle recommendations during transit disruptions, allowing operators to rapidly handle fleet delays and maintain scheduling integrity.
- Implemented a unique visual theme inspired by local logistics aesthetics, leveraging universally color-coded status badges (Red/Yellow for urgency, Blue for active tasks, Green for completion) to speed up operator scanning and minimize decision-making friction.

DESIGN & TECHNICAL SKILLS

Skills: UI/UX Design · Wireframing & Prototyping · Interaction Design · Visual Design · Accessibility

Strategy: UX Research · Usability Testing & Evaluation · Competitive Analysis · Journey Mapping

Tools: Figma · Generative AI · Linear · Miro

ACHIEVEMENTS & LEADERSHIP

Event Coordinator & UI Designer | Savyas'24 Annual Fest

- Coordinated operations for a 500+ attendee festival and designed the responsive event website.

1st Place | Padre Conceição College of Engineering Hackathon

- Won 1st place by prototyping an end-to-end mobile interface under strict time constraints.

UXHack Top Performer & Design Challenge Winner

- Ranked 3rd on the platform leaderboard across multiple competitive UI/UX design sprints.
